

Meritor Part

Meritor Parts - Meritor is a premier global dealer that is proudly established on a one hundred year custom of service and quality. They specialize in different integrated systems, modules and parts to original equipment manufacturers and the aftermarket for the transportation and industrial sectors.

Meritor prides itself in the company's distinctive energy and feels that this energy contributes to their competitive advantage in the international operations. The company values their customers and wishes to ensure their success while anticipating their different requirements. Meritor begins with a philosophy which values diversity of individuals and their broad thought processes. Operating in 19 countries and hiring over 11,200 individuals, Meritor encourages collaboration and innovation among a team of knowledgeable experts.

Meritor strongly believes in only employing future focused workers. These top-caliber individuals can quickly get used to to changing environments and freely exhibit the level of performance and commitment required to be able to attain results for the competitive market environment. The company empowers their teams to make sound business decisions in order to enhance the overall success of the business. In return, Meritor provides all of their workers different chances for professional and personal development.

The Advanced Engineering team is on the forefront of components and system engineering. This comprises drivelines, axles, suspension and braking systems utilized for medium and heavy duty trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is developing. They opened a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives which represent the entire Asia Pacific region. This team is also responsible for supporting the needs of their worldwide engineering employees.

The Quality team at Meritor is a customer-focused and dynamic group which is devoted to ensuring optimum progress at their production plants and aftermarket distribution facilities that are located on 5 continents and in 19 nations.

They have their supplier network that is specifically situated in order to support the growth of the business. Each regional team has globally supported initiatives, quality systems and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a data-driven, fact-based approach to decision making in each part of the company. The DFSS or Design for Six Sigma ensures product reliability within every region. The team is even included transactional Green Belts who utilize Six Sigma tools to business techniques and implement lean techniques.
