

Concrete Hoppers

Concrete Hopper - This attachment is a self-dumping hopper that automatically starts to dump when bumper release contacts the side of a dumpster. Once unloading is completed, the hopper goes back to an upright and locked position. This particular piece of equipment even comes with a cable which enables operation from the seat of the lift truck to be able to have the choice of manually unloading the hopper. There is a locking chain provided to be able to lock the hopper to the tine truck. This product is made with reliable and consistent robotic welds for maximum strength. The forklift dumping hopper likewise has a blue powder coat finish in order to maintain durability.
